Fit For The Finest Home

The same substantial the house you are planning, the more essential that you should select the highest quality building materials for its construction. This applies especially to weatherproofing materials, for these must bear the brunt of nature's assaults. Remember this when you talk over specifications with your architect and builder. You can put your trust in all Ruberoid Weatherproofing Products, Ruberoid Shingles, for example are made to meet a standard of quality—and a standard of price. They are made for the man who is satisfied with nothing less than the best, when the best means greater beauty, greater satisfaction, greater economy in the long run.

The same applies with equal force to all other Ruberoid Products, including Ruberoid Roll-roofing, Ruberoid Building Papers and Ruberoid Canvas-weatherproofing. Every Ruberoid Product is worthy of the same it bears.

There is a Ruberoid Distributor near you. Ask him about Ruberoid and Weatherproofing Products.

Prest-O-Lite's Contribution to Canadian Prosperity

Making and Distribution of only Storage Battery that is All-Canadian-Made Provides Livelihood for more than 1,000 Families.

When you select a Prest-O-Lite Storage Battery to replace the old one on your car, you are not merely obtaining the most powerful and trouble-free battery at the lowest price.

You are giving yourself a legal citizen of Canada, co-operating with the great movement for a "Genuine Industrial Canada." Every dollar you spend for all-Canadian-made goods does the work of its equal for assembled goods made from imported parts.

Prest-O-Lite Batteries are produced complete in Canada's finest factory at Hillcrest Park, Toronto. Every bit of material in the Prest-O-Lite Battery is Made in Canada. Nine important Canadian factories supply these specialty parts not made in our own factory and the metals and chemicals which are used in our own processes.

More than 200 Prest-O-Lite service stations serving every important

city and centre of Canada, distribute Prest-O-Lite Batteries and contribute their earnings from Prest-O-Lite to the welfare of these communities.

On our part, we have created a battery of quality that for power and long life equals the finest batteries produced in the United States and other countries. It has been our duty and pleasure to give you this battery at the lowest price, and at as low a price as similar batteries sell for in the United States.

Prest-O-Lite's leadership and its importance in the upbuilding of Canadian prosperity is recognized by its per cent of Canada's leading car manufacturers who have adopted this battery as standard equipment on all their cars.

Need we tell you any better reason why your next battery should be Prest-O-Lite, and no other?

Only Eversharp
Has a Rifled Tip

EVERSHARP is equipped with a rifled steel tip. That's why it works so well. Made with such like precision the steel tip is there for a definite purpose—to grip the lead tightly as it passes through and hold it in place while you write. It is patented. It is exclusively an Eversharp feature. To make sure of life long service insist on seeing the name Eversharp on the barrel. And for your continued satisfaction get Eversharp leads when your pencil needs refilling. Sold by dealers everywhere.

The man of business whose tasks are made shorter and easier with modern devices, should be the first to advocate similar efficiency in his household. In particular should he approve a home labor-saver that eliminates the injurious dual duty of sweeping and dusting and one that repeatedly repays its cost, as does The Hoover. For this efficient cleaner ends carpet-cleaning expense, increases the efficiency of help and effects other tangible savings. Chief among these is the added life it imparts to floor coverings by gently beating out all nap-wearing, embedded grit as it electrically sweeps up all clinging litter, matted nap, brightest colors and suction cleans. Only The Hoover does all this. Hoover-cleaned homes are the standard for cleanliness and healthfulness, so let your next investment be a Hoover.

Vaseline White

PETROLEUM JELLY

Our Next Premier

This will be a specially attractive feature of the first election year of MACLEAN'S, in which one of Canada's leading journalists will describe frankly and accurately the real character of our next Premier—whether he be Mighens, Keweenaw, or Keweenaw. Each election will be short but amazing in the presentation of the candidates.

which might and should have been brought to the attention of the public. It is not a matter of mere fact, but of fact and of fact. It is not a matter of mere fact, but of fact and of fact. It is not a matter of mere fact, but of fact and of fact.

Evolving Corn from Grass

Luther Burbank Adds Another Chapter to His Botanical Industry

R. S. WOODSON

AFTER sixteen years' intensive experimentation Luther Burbank has produced a new corn from grass. The new corn is called "Burbank's Corn" and it is the result of his experiments with grass and corn.

"It was the average Indian who brought me to the attention of the fact that the corn was not a new plant, but a new variety of the old plant. It was the average Indian who brought me to the attention of the fact that the corn was not a new plant, but a new variety of the old plant."

WILLYS- KNIGHT

**Exceptional Value at
The New Low Prices**

Now, you can buy the Willys-Knight—one of
the world's finest cars—at a surprisingly low
figure.

Think of the lasting satisfaction you Willys-Knight
invariably gives. No valve grinding, no carbon
cleaning, no lubrication trouble with the Stevens-
Valve Motor. Just mile after mile of quiet, effi-
cient, safe, no-worries running, with negligible upkeep
expense.

The Willys-Knight Stevens-Valve Motor actually
represents with ease. It is free from complications,
the steering is light and on-rails a telecopier. It is
economical and everlastingly dependable.

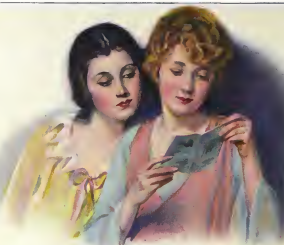

Europe's earliest cars are equipped with this
motor. The Willys-Knight car, in every detail, is
worthy of the motor.

For your special type of skin— there is a special treatment

*Skins differ widely—are you using the right treatment
for your special type of skin?*

IF your skin is a constant problem—if you cannot keep it smooth and flawless—then you may be sure it is because you are not using the right treatment for your special type of skin.

Skins differ widely. A naturally oily skin needs a special form of cleansing to counteract the tendency to an excess of oil. A pale, sallow skin needs a treatment that will stimulate the pores and blood vessels.

No matter what your type of skin happens to be—by the right treatment you can overcome its defects. For your skin is constantly changing—each day old skin dies and new takes its place. Give this new skin the special care suited to its needs—and see how beautifully soft and fine and clear you can make it!

For an oily skin use this special treatment every night:

First cleanse your skin thoroughly by washing it in the usual way with Woodbury's Facial Soap and warm water. Wipe off the surplus moisture, but leave the skin slightly damp. Now with warm water work up a heavy lather of Woodbury's Facial Soap in your hands. Apply it to your face and rub it into the pores thoroughly, with an upward and outward motion. Rinse with warm water, then with cold. If possible, rub your face for a few minutes with a piece of ice.

"Your Treatment for One Week"

Send \$10 for a miniature set of Woodbury's skin preparation, containing your complete Woodbury treatment for one week. In it you will find the treatment booklet, "A Skin You Love to Touch"; a trial size cake of Woodbury's Facial Soap; a sample tube of the new Woodbury Facial Cream; and samples of Woodbury's Cold Cream and Facial Powder. Write today for this special outfit. Address The Andrew Jergens Co., Ltd., 702 Broadview St., Perth, Ontario.

For a pale, sallow skin use this new steam treatment:

One or two nights a week, fill your washbowl full of hot water—almost boiling hot. Bend over the top of the bowl and cover your head and the basin with a heavy bath towel, so that no steam can escape. Steam your face for thirty seconds. Now lather a hot cloth with Woodbury's Facial Soap. With this, wash your face thoroughly, rubbing the lather well into the skin with an upward and outward motion. Rinse thoroughly, first with warm water, then with cold, and finish by rubbing with a piece of ice.

In addition to the special treatments given here for two types of skin—an oily skin and a pale, sallow skin—you will find other special treatments for all the different types of skin in the famous booklet, "A Skin You Love to Touch." This booklet is wrapped around every cake of Woodbury's Facial Soap.

Get a cake of Woodbury's today at any drug store or toilet goods counter—find the treatment recommended for your skin and begin using it tonight. A 25c cake lasts for a month or six weeks of any treatment, and for general cleansing use. The Andrew Jergens Co., Cincinnati, New York, and Perth, Ontario.

If you have the type of skin that is subject to blackheads—find the special treatment you need on page 3 of the booklet, "A Skin You Love to Touch."

If your skin is of the tender, sensitive type—learn the right treatment for it on page 6 of the booklet, "A Skin You Love to Touch."
